

Rinato XL Spa™

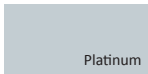

The Rinato XL is a hybrid of our two most popular spas—the Murano Spa and the Rinato Spa. The streamlined and ergonomic basin is technician-friendly, and clients will love the remote controlled seat and massage functions. With client-controlled seat recline, forward and back movement and roller massage settings, every client will find their ideal setting. The result is the perfect experience that keeps clients coming back. Independent leg supports and Clean Touch pipe-free technology offer ease-of-use benefits to the Nail Technician.
