

A MASTERPIECE OF DESIGN, LUXURY AND PERFORMANCE.

Sometimes excellence can be recognized in an instant. Such an example is the Murano Spa™. One look confirms its state-of-the-art design evolution. Elegant European-inspired lines, a gracefully contoured base topped by a deep, thick seating pedestal. And its most unique feature, a one-of-a-kind beautiful custom glass basin. Yet the true beauty of the Murano Spa is much more than meets the eye. Automated comfort settings, including a unique air massage system and electronic seat movement, provide added client relaxation at the touch of a button. A conveniently located technician's digital control panel to power the extensive spectrum of operational functions. And our patented Crystal Clean Pipe-Free™ technology that is second-to-none in salon sanitation control. The European Touch Murano Spa. A first class experience from head to toe.
