

## CLASSIC SOPHISTICATION, SUPERIOR ENDURANCE, CHIC ACCOUTREMENTS.

Mirroring the distinctive personalities of our Murano and Rinato Spas, the Rinato XL is a true hybrid of our two most popular products for a stylish combination of these revolutionary pedicure spas. Like all European Touch products, the Rinato XL presents a unique grace with unrivaled design intelligence, geared to enhance your pedicure service for your clients as well as your technicians. From the smart appearance of the streamlined basin to the unmatched simplicity of our **Clean Touch™ Pipe-Free** technology, Rinato XL takes ease-of-use and efficiency to the next level.

Your clients will notice your attention to their comfort with the addition of the European Touch Air Caress Relaxation Massage System. Reflecting the serenity of a spa environment, this gentle massage was created exclusively for European Touch for a soothing and calming client massage. Our Air Caress Massage, adjustable in firmness, two styles of massage, and three back “zone” positions, achieves the perfect individualized relaxing client massage. For optimum leisure, the Rinato XL has a swivel chair for easy entrance and exit from the spa.

With client-controlled seat recline, forward and back movement and massage settings, every client will find their ideal setting. For the ultimate pedicure experience, sound can be added to let your client drift away during their pedicure using their own portable music player. The result is the perfect experience that keeps clients coming back.

in Black base, India Ink  
cushion, and Pearl basin.*

Solid cast-aluminum leg supports that independently adjust for pedicure and massage treatments and allow the technician to work freely with both hands.

Deep, enveloping seat swivels to allow easy entry and exit for clients of all heights.

Client specifically chooses the perfect placements for chair forward/back and recline positions and massage settings via remote control.

Exclusively equipped with Clean Touch™ Pipe-Free technology, the innovative pipe-free system designed in cooperation with a panel of nail technicians to answer the needs of the industry. See page 16 for more information.

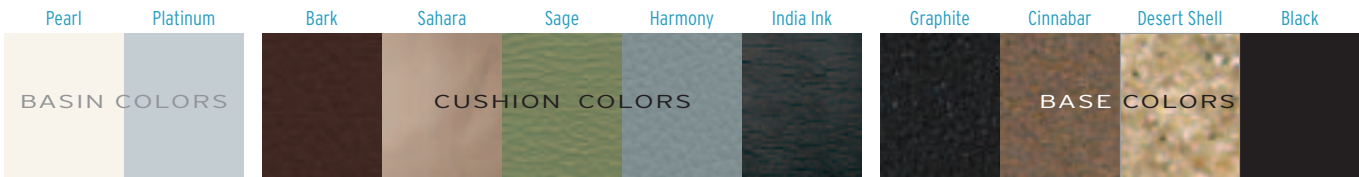

Conveniently located control panel with improved hand sprayer is within easy reach for the technician.

### Custom Color Options

Choose from one of our six standard Color Trend cushion colors, or select from our new CUSTOM COLOR OPTION which allows you to choose from an array of special cushion colors and textures at no additional cost. See page 17 for more information.

### Audio and Speaker Options

Audio and speaker options are available on this spa. See page 18 for details.

Two custom sound options [available as an upgrade] to choose from. Select the most appropriate style for your specific needs. Options include factory installed hard-wire with headphones or a plush pillow with speakers cleverly hidden inside. See Page 18 for more details.

Air relaxation massage system employs six inflating and deflating air pockets perfectly placed to provide a soothing pressure point massage. Clients select from two massage styles [wave or pulse] three focus zones [top, middle, and lower back], and can adjust the firmness.

Clean Touch basin requires only 4.5 gallons of water per pedicure, lowering hot water bills and providing the Eco-Friendly Answer to pedicure spas.

Optional Power Drain Pump makes draining water quick and efficient.

Streamlined basin design allows technicians to sit comfortably throughout an entire shift, with easy access to control panel, where on/off, water fill, and faucet controls are located.
